Ahmed Gamal Mosad Eldeeb

20/6/1986
Egypt, Damietta, New Damietta, Al hai 1, elmogawra 3, behind abd elhadi group
01227076767: Egypt
+966504526554 : KSA
age.software86@gmail.com
Military status: fulfilled
Gender: Male
Marital status: Married

Objective: To obtain position in programming with a focus on, Developing application using C#, ASP.Net, SQL server and LINQ. Primary areas of interest include system analyst, team leader, making applications hopping people use after me, exert effort to raise my position value and share the glory of this company.

Education:

- Bachelor of Computer and information Science (Computer Science (CS) Department), Assiut University. (2007)
  Grade 'Good': 72.4%
  I have the honor to get the 7th position between my colleagues in CS department and 12th position between the whole Class.
- **ITI** 9-month **Diploma** (2011) System development (SD), Mansoura branch, **Ministry of Communication and Information Technology** (MCIT).

Graduation project: **M**obile **A**pplication "**V**ideo **C**all" over Bluetooth (Using java J2ME and C#).
(Supported by ITAC "Industrial and Technology Assistance Corporation")
Degree: Excellent

Technical Skills:

- **C/C++**.
- **Visual C#.Net** perfect knowledge of programming concepts, **OOP** (Object Oriented Programming).
- **ASP.Net 4.0** using **C#**.
- **ADO.Net, LINQ to SQL and Entity Framework (EF)**.
- **'SQL Server'**, Transact-SQL and DBMS.
- **Oracle, Toad.**
- **WCF** (windows Communication foundation).
- **Angular 6.**
- **Ajax, xml, JavaScript and web services, Restful web service WebAPI.**
- **JQuery, HTML5, Bootstrap.**
- **Crystal Report**.
- **Business Intelligence** using (, Microsoft Analysis service Microsoft Integration services and Microsoft Reporting service), dataWare housing.
- System analyst and SDLC (Software development life cycle).
- JAVA, JAVA servlets and oracle.
- Third parity tool DevExpress.
- **Mobile Cross application platform Application development (IONIC Platform, Cordova plugins, Angular, Gulp script bundling server, webpack, Apache Cordova, PhoneGap, HTML5, JQuery, Typescript, JQuery Mobile, Bootstrap).**
- Amazon **AWS** Certified Solutions Architect – Associate   **(preparing for Exam).**

Work Experience:

7+ years of experience as specified below:

Company	Job Title	Period	
		From	**to**
Tkhyl cartoon Production Company	Developer	1/4/2010	1/10/2010
ITS (International turnkey System) iTS www.ITS.ws	.Net Developer (banking systems)	12/6/2011	1/2/2012
(DPA) Damietta Port Authority www.DPA.com.eg	Computer Operator Specialist (Early graduates)	1/2/2012	1/7/2016
Smart Soft www.smartsoftde.com	.Net Developer **(Part Time)**	1/3/2012	1/5/2015
شركة الإمارات للانظمة و) **ESSBC** (الحلول المتكاملة http://www.essbc.ae/	Senior .Net developer (**Freelancer**) UAE	1/5/2015	1/6/2016

Personal skills
- Work under pressure.
- Self-organized.
- Working in a group.
- Love challenging problems
- Good communication skills.
- Self-motivation, programming passionate.
- Very good English command (written and spoken).
- Learning new software programming languages (Now studying Android).

Interests and Activities
- Playing chess and Ping-Pong.
- Reading.
- Thinking in new software projects like www.monazama.com (building tree hierarchy in your organization and facilitate the communication between them through the website and also SMS messages).

- Available upon request.

PROJECTS DETAILS

- **Tkhyl cartoon Production Company**
    1. **Project Names**: Moving Cartoon.
        - **Project time frame**: 6 Months from 1/4/2010 to 1/8/2010
        - **Project Description**: Character using C# programming and ADO.Net access Database, and build file structure for storing the motion for playing back.
        - **Responsibilities:** Everything about the project: Planning, Analysis, design and implementation.
        - **Technologies:** C#, ADO.Net, Access database, File Structure for store motion and finally Connect with Flash File for sending the motion variables to it.
    2. **Project Names**: Archiving the scene Information.
        - **Project time frame**: 6 Months from 1/8/2010 to 1/10/2010
        - **Project Description**: making C# desktop application for storing retrieving searching for specific information on scene.
        - **Responsibilities:** Everything about the project: Planning, Analysis, design and implementation.
        - Technologies: C#, ADO.Net, Access database.
- **ITS (International turnkey System)** ITS
    1. **Project Names**: GFS G8 (Global Financial System) G8.
        - **Project period**: 7 Months from 12/6/2011 to 1/2/2012.
        - **Project Description**: banking systems the main sector at ITS, working at Branch automation system Application, this application consists of Database server application, application server (Mainly Web Service) and client application C#.
        - **Responsibilities:** .Net developer, this is large scale company which have about 650 employee , my responsibilities is about understanding CR (Change request) , programming C# , and fitting Business logic through creating SP(Stored procedures), Views , triggers and creating Transactions.
        - **Technologies:** C#, ADO.Net, Sql server 2008, LINQ, Web Services and also **IBM Subversion, third parity tool Infragistics**.
        - [**www.ITS.ws**](www.ITS.ws)

- **DPA (Damietta Port Authority)**
  1. **Project Names**: Monitoring Ships Transactions.
     - **Project time frame**: from 1/2/2012 to up 1/7/2016
     - **Project Description**: monitoring ships Transactions (in-out) this application about recording the ships transaction entry and leaving , time it took for the operations of Loading and unloading, then generating managerial report about the number of entrance/day , the total # of ships at this day in the last month and also last year etc…
     - **Responsibilities:** .Net developer programming C# creating the required **CRs** and fitting the new requirement.
     - **Technologies**: C#, Sql server 2008, LINQ, and third parity tool DevExpress.
     - **www.DPA.com.eg**

- **Smart Soft (part time):**
  1. **Project Names**: Hospitals HMS (Hospital Management system).
     - **Project time frame**: from 1/3/2012 to 1/1/2013
     - **Project Description**: Managing hospital patients information and medical records, patient reservations to outside Clinics , Ray Clinic and also Laboratories, Operations and also patient Housing at emergency department and any class degree (First class , economic etc…), then adding services to that patients and creating general invoices that's contains every services that patient taken.
     - **Responsibilities:** Planning, analysis, design and implementation , creating use cases, programming C# and also creating the required CRs and fitting the new requirement.
     - **Technologies**: C#, Sql server 2008, LINQ to Sql, and also, third parity tool DevExpress, providing remote support through TeamViewer.
  2. **Project Names**: Clinic, Pharmacies and laboratories.
     - **Project time frame**: from 1/1/2013 to up till now
     - **Project Description**: Managing Clinics patients information and medical records, patient reservations, Ray Clinic and also Laboratories, then adding services to that patient and creating general invoices that's contains every services that patient taken like HMS.
     - **Responsibilities:** Planning, analysis, design and implementation .Net developer programming C# and also creating the required CRs and fitting the new requirement.
     - **Technologies:** C#, Sql server 2008, LINQ to Sql, and also, third parity tool Devexpress, providing remote support through TeamViewer.
  3. **Project Names**: Larsa Hospital, Larsa Document workflow Management (Web Application Asp.Net).
     - **Project time frame**: parallel with the above period.
     - **Project Description**: Managing patient's information and medical records, patient reservations, Ray Clinic and also Laboratories, then requesting services from other Clinics.
     - **Responsibilities:** Planning, analysis, design and implementation .Net developer programming C# and also creating the required CRs and fitting the new requirement.
     - **Technologies:** C#, Sql server 2008, LINQ to Sql, and also, third parity tool DevExpress, providing remote support through TeamViewer.

- **ESSBC (Freelancer) right now (Asp.Net, JQuery, EF, DevExpress)**
  1. **Project Name TMS**: time management system for monitoring the employees activities at working time what is the frequently working programs opened, generating charts and percentages and also sending Emails to each employee weekly with the information generated.
     - **Technologies:** C#, Sql server 2008, LINQ to Sql, and also, third parity tool DevExpress, providing remote support through TeamViewer.
     - **Responsibilities** creating the required CRs and fitting the new requirement, creating also the windows service that sending that emails.

  2. **Employment system: this system is for UAE Sharjah employment affairs, it is about announcing the jobs, then the jobseekers apply about it then the system arrange the**

interview, session, location also date and time for the jobseeker also sending emails to the job seekers with detail information, also the system set the Committee members which make the interviews to the jobseekers.

- ▪ **Responsibilities** creating the required CRs and fitting the new requirement about the business.

- **www.ccplabware.com (online)**
  1. **Project Name ccplabware**: project for faculty of Pharmacy, coordinating between employees, faculty members, technician and administrators, and handle the faculty assets variety from chemicals, instruments, projects, courses, Security Module for the administrator to handle the users and role for each one, requests and notifications between the request and the receivers.
     - ▪ **Technologies:** C#, asp.net, Sql server 2014, LINQ to Sql.
     - ▪ **Responsibilities handle project from startup to finish** creating SRS, handle new CR's.

- **www.hamlahajj.com (offline), testing purposing Server http://188.227.164.171/hamlahaj/**
  1. Project **Hamlahajj** : the work of this service has been completed for the pilgrims of the interior to choose the best campaigns through the assessments of former pilgrims wishes from the new pilgrims to investigate accuracy and honesty In the introduction of the evaluation and to encourage campaigns to provide the least service to the pilgrims, this application was stopped for God wishes to accept from us and you the benefit of the business, don't forget in favor of your prayers

     - ▪ **Technologies:** C#, asp.net, Sql server 2016, LINQ to Sql, AJAX ,JQuery.
     - ▪ **Responsibilities: the whole project from startup to finish**.

- **Project for fun Northwind Angular (online), testing purposing Server http://188.227.164.171/NorthwindAngular#/settings**

     - ▪ **Technologies:** C#, Angular, Asp.net WebAPI, Sql server 2012, LINQ to Sql, AJAX, JQuery.
     - ▪ **Responsibilities: the whole project from startup to finish**.

- **http://mohamedrabeea.net/ (online)**
     - ▪ Online book library with CMS Admin control panel.
     - ▪ mail Server
     - ▪ **Technologies:** C#, asp.net, Sql server 2012, LINQ to Sql, AJAX, JQuery, recursive processing.
     - ▪ **Responsibilities: the whole project from startup to finish**.
